## About me

---

Safety has always been one of the biggest concerns in the world today especially in African communities. As a child, I experienced my fair share of traumatic experiences ranging from being trapped in a flooded house to being attacked by armed robbers which could have been averted if safety was a “click away”.

Recently, the stories of sexual abuse and domestic violence have been on the rise and society is concerned about personal safety and ways of combating the security issues. In an effort to support the safety initiative, I was inspired to build “KASALA” . The vision for Kasala is to keep users safe, protected, and confident even in their most vulnerable moments.

---

## Ventures

---

### **Rector Group of Companies Ltd.**

FOUNDED - October 25, 2017

Rector Group of Companies is a holding company that operates the Kasala App, Yawa App and other subsidiaries of the Rector Group.
